Updated April 2006

This document was prepared and updated under grants #95-JN-FX-0008 and #1999-MU-MU-0020 from the Office of Juvenile Justice and Delinquency Prevention, U.S. Department of Justice.

#### **Bibliographic Citation**

National Center for Juvenile Justice. *Arkansas Juvenile Court Case Records: 1999* [machine-readable data file]. Data collected by the Administrative Office of the Courts as part of its juvenile case reporting system. Data were provided to the National Juvenile Court Data Archive, National Center for Juvenile Justice where they were revised for research use under grants #95-JN-FX-0008 and #1999-MU-MU-0020 from the Office of Juvenile Justice and Delinquency Prevention, U.S. Department of Justice. Little Rock, AR: Arkansas Administrative Office of the Courts [producer]. Pittsburgh, PA: National Juvenile Court Data Archive, National Center for Juvenile Justice [distributor].

#### **Acknowledgment of Assistance**

All manuscripts utilizing data made available through the National Juvenile Court Data Archive should acknowledge that fact as well as identify the original data source. In addition, some adaptation of the following statement should be used in any manuscript produced using these data:

The data utilized in this publication were housed in and made available by the National Juvenile Court Data Archive which is maintained by the National Center for Juvenile Justice in Pittsburgh, Pennsylvania, and supported by a grant from the Office of Juvenile Justice and Delinquency Prevention, U.S. Department of Justice. The data were originally collected by the Arkansas Administrative Office of the Courts. Neither the Arkansas Administrative Office of the Courts nor the National Center for Juvenile Justice bear any responsibility for the analyses or interpretations presented herein.

In order to provide funding agencies with essential information about the use of archival resources and to monitor Archive users' research activities, every user of Archive data is asked to send a copy of each completed manuscript or thesis abstract to the National Juvenile Court Data Archive. In the cover letter please indicate which data were used.

#### INTRODUCTION

#### History of Arkansas' Juvenile Case Reporting System

The Administrative Office of the Courts (AOC) began collecting data from intake and probation departments across the State in 1983. Circuit court clerks and juvenile judge case coordinators became responsible for reporting cases to the AOC in 1989. The general authority for the AOC to collect the data is stated in Section 43 of the Arkansas Juvenile Code.

#### **Data Collection Methods**

The juvenile division of chancery court is vested with original and exclusive jurisdiction in all cases of dependent/neglect, delinquency, and families in need of services cases. The court was also given concurrent jurisdiction with chancery or probate courts for cases of paternity, the involuntary commitment of minors, and certain other cases that arise while a juvenile is before the juvenile division court on a pending matter.

Juvenile court intake officers and circuit court clerks complete Batch Juvenile Case Filing Forms and Batch Juvenile Case Disposition Forms and submit them to the Administrative Office of the Courts monthly. In addition, juvenile judge case coordinators utilize a PC-based version of the Juvenile Court Case Management System and submit floppy disks to the AOC monthly along with a printed output report.

#### **Publications**

Each year the Administrative Office of the Courts has published an *Annual Report of the Judiciary of Arkansas, Statistical Supplement of All Arkansas Counties*, which includes summaries of juvenile court activity for the year. In addition, the Administrative Office of the Courts publishes Quarterly Summary Reports for the judges, legislature and any other interested parties.

#### **Archived Data Files**

The data files received by the National Juvenile Court Data Archive contain a record for each case disposed during a calendar year and reported to the AOC. The data files contain an individual record on each delinquency, dependent/neglect or family in need of services case disposed. Cases processed formally (with a petition) are included. Paternity, custody or support, adoption, termination of parental rights, URESA, guardianship, civil commitment, probation revocation and review hearings are deleted from the archived file. The Archive staff has checked the data for invalid or inconsistent code values. When found, such codes were replaced with missing data values.

The Archive creates three offense fields (AR062, AR063 and AR064) by assigning a four digit code to each unique statute (AR024 through AR044). The Most Serious Recoded Offense (AR065) in a case is selected from these three offenses based on a seriousness hierarchy developed by Archive staff (see Appendix II). The Archive also creates the variable Disposition (AR066). The disposition selected is conceptually determined by the restrictiveness imposed upon the youth by the Court. The most severe disposition is selected from among the following variables (AR050, AR051, AR052, AR053, AR054, AR056, AR058, AR059, AR060 and AR061).

Each case record is 202 characters in length and contains 67 variables. The data are stored in single year files. The number of case records on each calendar year data file is as follows:

<u>Year</u>	Records
1999	19,319

#### Terms of Availability

Each request to use these data should be directed to the Archive. The Archive will contact the Arkansas Administrative Office of the Courts regarding their release. Upon the AOC's authorization to release and disseminate the data, the data files will be supplied to the requester by the Archive with any necessary cautions or restrictions.

The Archive provides the data on magnetic tapes **AS IS** and shall not be responsible for any liability incurred as a result of any error or omission in the data as it appears on the magnetic tapes. However, should any inconsistencies be found, the Archive asks to be notified so that corrections can be made to the data.

All questions and requests should be addressed to: National Juvenile Court Data Archive National Center for Juvenile Justice 3700 South Water Street, Suite 200 Pittsburgh, Pennsylvania 15203 412/227-6950

Summary tabulations for delinquency, status offense, and dependent/neglect cases for each county in Arkansas are publicly available beginning with 1989 data through the Inter-university Consortium for Political and Social Research at the University of Michigan, P.O. Box 1248, Ann Arbor, Michigan, 48106.

#### USING THE CODEBOOK

The information that follows is based on a study of available documentation from the data supplier (e.g., Instructions for the Uniform Reporting of Juvenile Court Cases, Instructions for Batch Juvenile Court Case Reporting and Juvenile Court Case Management System manual), interviews with the data supplier, and diagnostic analyses performed by the Archive staff. The example below is a reproduction of information appearing in the codebook for a typical variable. The numbers in brackets do not appear in the codebook, but are references to the descriptions which follow this example.

Column/ <u>Width</u>	Variable <u>Number</u>		Code Value and Description
[1] 167/2	[2] AR053	[3]	COURT ACTION [alpha/numeric field]
		[4]	Indicates the adjudication of a case.
			[5] [6]
		[7] [8]	<ul> <li>(DM) Dismissed</li> <li>(FD) Found delinquent</li> <li>(FN) Found neglected</li> <li>(FF) Found family in need of services</li> <li>(OD) Other disposition - Used in cases other than delinquency, dependent/neglect and family in need of services.</li> <li>(99) Missing</li> <li>NOTE: Other disposition also includes cases waived to adult</li> </ul>

- [1] The starting location and width of the variable in the machine-readable data file. This is the format information needed to read the data into other systems.
- [2] The variable number. The variable number is used as a variable name when the file is processed by systems which use alphabetic variable names (e.g. SPSS).
- [3] The variable label used by statistical systems to identify the variable or program output.
- [4] A description of the variable contents.
- [5] The code values occurring in the data for the variable. If the variable is a year, the symbol ## represents the most current year for which data are available.
- [6] The textual definitions of the codes. The first 20 characters form a short value label which some systems use to document the output of analysis programs. A longer description follows the short label when necessary.
- [7] The designation of missing data. The Archive staff has replaced any out-of-bounds codes with missing data codes. Many analysis packages require that certain types of data which are usually excluded from analysis be designated as missing data. Fields with no entry were left blank and ( ) No entry is listed as a code value. Some variables also have response options representing unknown which are also listed as code values.
- [8] An explanatory/cautionary note.

#### VARIABLE LIST

AROUT County Identification	AR001	County identification
-----------------------------	-------	-----------------------

#### **Docket Number Variables**

AR002 Docket prefix

AR003 Docket year

AR004 Docket serial number AR005 Docket qualifier

AR006 Docket qualifier

AR007 Division

AR008 Filler

#### **Demographic Variables**

AR009 Race

AR010 Sex

<u>CHARGE INFORMATION</u>: A reason for referral to court based on the Arkansas Code. Up to three charges (A, B, and C) may be reported. Each charge is comprised of seven parts. Archive staff recode these charges into three offense fields (AR062, AR063 and AR064) by assigning a four digit code to each unique statute.

Charge A		
80/2	AR024	STAT A1
		The Statutory Title of the Arkansas Code.
82/3	AR025	STAT A2
		The Statutory Chapter of the Arkansas Code.
85/4	AR026	STAT A3
		The Statutory Subchapter of the Arkansas Code.
89/1	AR027	STAT AQ
		Qualifier.
90/1	AR028	TYPE OF CHARGE A (alpha field)
		<ul> <li>( ) No entry</li> <li>(C) Capitol</li> <li>(F) Felony</li> <li>(M) Misdemeanor</li> <li>(V) Violation</li> <li>(9) Missing</li> </ul>
91/1	AR029	CLASS OF CHARGE A (alpha field)

Represents the seriousess of the offense; the ranking is: Y (most serious), A, B, C, D, U (least serious). The full range of rankings can be applied to any offense category, such as person, property, public order, drug law violation, or other.

## Appendix III

Original Data Collector's Statement of Acceptance

## STATEMENT OF ACCEPTANCE

I have reviewed Arkansas Juvenile Court Case Records: 1989 - 1990 User's Guide and accept it as an accurate description of the delinquency data stored at the National Juvenile Court Data Archive and of the methods used by the Administrative Office of the Courts to collect these data. This user's guide may be revised to cover future years' data unless there are such major changes in the data collected as to warrant completely new documentation.
